

INSTALLING METAL "Y" REPLACEMENT HANDLES

Refer to the [Parts Breakdown Book](#) for replacement part numbers or [contact customer support](#) for help in finding a part

You may need several of these tools:

- Allen wrench (5/16 or 7/32)
 - Channel locks
 - Crescent wrench
 - Flathead screwdriver
 - » Phillips head screwdriver
 - Pipe joint compound
 - Soft cloth
 - Teflon tape
 - No tools necessary
1. Using a phillips head screw driver, remove handle screw. Lift off handle.
 2. Install new handle over stem and bonnet assembly.
 3. Position handles so that the "H" and "C" display properly.
 4. Replace handle screw.
