FAUCETS

# New From Phoenix

## Hand Held Showers -

Handheld shower heads and accessories. With **4 levels of functions**, your customers are sure to find what they need at the price they want. Available in 3 popular finishes.

## Catalina has 4 new skus -

- » Concealed garden tub filler with adjustable centers
- » Ledge mount garden tub filler
- » Wall mount tub filler
- » Kitchen with Side Spray -

## Faucet Display Stand -

We've improved our shelf-top faucet display. The new design has **two levels** for easier customer viewing, made of a **sturdy lightweight material** and includes optional **Product Locator graphics**.

Our **One To Show - Three To Go** faucet and display stand package is now available anytime but you'll still get the best price by ordering at a show.

**One to Show** - We've added an option for our customers who want to upgrade their display but already have the stock.

**Customized Flyer** - We'll provide a Show Special Display Flyer customized for each show and customer.

## 4 New Planograms -

Last year we introduced new packaging for our carded parts program. Now you can order 3 different planograms. Our expanded carded parts program and **Planograms With Focus** will help your customers locate what they need quickly.

- » **Focus on Repair** offers faucet repair parts
- » **Focus on Replacement** offers replacement parts such as handles, spouts, etc.
- » **Focus on Upgrade** offers upgrades to handles, spouts, showerheads, etc. (shown)
- » **Focus on Shower** displays our line of hand held shower heads and accessories

## Special/Designer Finishes -

In response to the latest color trends, Phoenix has added **Rubbed Bronze** and **Antique Brass** finishes to select models.

## Utopia Faucet & Parts -

Now you can add genuine Utopia sku's to your Phoenix order.

- » **8" Tub filler** with diverter and **Offset Shower Outlet**
- » **3 Most Popular Spouts:** D Spout, Hi-arc, and Tubular
- » **Flat Washer Stem and Bonnet**

## Catalina Tub Spout w/Diverter

Two handle tub filler w/diverter, 8" center

**R0801\***

## Catalina™ faucets feature:

- Sleek contemporary styling
- High luster, scratch and stain resistant finish
- One-piece, spin welded underbody means no o-ring seals
- Aerated, splash-free water flow
- Quarter turn washerless cartridge
- Smooth flow control with ADA compliant lever handles
- 5 year limited warranty

**Most Catalina** underbodies are made of a durable synthetic polymer that resists corrosion, rust and mineral buildup, most use our unique spin welding process to create a one piece underbody eliminating o-rings that can cause leaks.

 Lever handles offer smooth flow control with ADA compliant handles for easy operation.

\*o-ring underbody

**The Phoenix Pressure Balance Valve:**

- » Adjustable hot water limit stop: Choose *a personal comfort level* of water temperature between 95°F and 105°F.
- » Ceramic Disc Cartridge: Precision ground to provide precise control. No Washers, No Deterioration.
- » ADA compliant: Low resistance lever handle
- » See models 4305, 4355, 4301, 4351

Phoenix pressure balance faucets are designed to protect against unexpected changes in water temperature by responding to sudden changes in water pressure. Residential building codes generally require this kind of protection against sudden temperature fluctuations. Our pressure balance models meet the performance requirements of ANSI/ASME.

For more information or to place an order call 1-800-222-6041 or visit us on the web at phoenixfaucets.com.

**Phoenix non-metallic underbodies:**

Other manufacturers of non-metallic faucets use o-rings to join waterway shanks and spouts. At Phoenix we think there's a better way. Phoenix non-metallic underbodies are assembled using our unique **SPIN WELDING** process. Spin welding creates a one piece waterway and requires **NO SEALS, NO O-RINGS** and **NO SNAP TOGETHER COMPONENTS** offering the **BEST SEAL** against drips and leaks.

SPIN WELDING CREATES AN ALMOST INVISIBLE SEAM TO CREATE A ONE PIECE WATERWAY.

Phoenix non-metallic faucets use a **Durapro™** underbody. **Durapro** is a unique, lead-free material resistant to household cleaners, chemicals, acids, plumbers' putty and insecticides. They are tested to withstand over 500 psi and 180°F.

All Phoenix faucets comply with the requirements of ANSI A112.18.1M  
 Max flow rate 2.0GPM for aerators and 2.5 GPM for shower heads at 80 PSI

A faucet with knob handles has stems that turn in the same direction to turn water on and off: counter clockwise to turn on, clockwise to turn off. If lever handles are replacing standard knob handles, the cold side stem will also have to be replaced in order for the new handles to operate properly by turning in to turn on the water and turning out to turn the water off.

All phoenix aerators are interchangeable. Choose metal in chrome or polished brass, or plastic in white or black. Handles on all two handle faucets are interchangeable. Some may require changing the cold side stem.

For more information or to place an order call 1-800-222-6041 or visit us on the web at phoenixfaucets.com.

RIGHT HAND vs. LEFT HAND STEM AND BONNETS

Two handle faucets with standard acrylic handles use the same stem assembly for the hot and cold sides: A right hand stem and bonnet that opens when the handles is turned counter clockwise (left) and closes in a clockwise (right) direction.

Right hand - Hot side  
ONLY for lever handles  
Hot OR Cold with knob  
style handles ONLY

Left hand - Cold side ONLY  
for lever handles

Two handle faucets with lever handles are designed to open when you pull the levers toward you and to close when you push the levers back. Therefore, these faucets use a right hand stem and bonnet on the hot water side, and a left hand stem and bonnet on the cold water side. We know that seems backwards, but that's how it's done .... Really!

Renewable seats, also known as “renu” or “bibb” seats, are required by code for all faucets mounted in a concealed installation behind a wall or beneath a ledge. Renewable seats are also offered as an upgrade option in brass and plastic faucets installed on sinks or in exposed installations in front of the wall.

Renu seats make it possible to completely repair and eliminate any faucet leaks without having to replace the faucet. Most renewable seats are manufactured from brass though we use a nylon version in our plastic faucets for particularly corrosive water conditions.

For more information or to place an order call 1-800-222-6041 or visit us on the web at [phoenixfaucets.com](http://phoenixfaucets.com).

## TERMS AND CONDITIONS

### Warranty:

For a period of five years, Phoenix Products warrants its faucets against defects in material or workmanship, ordinary wear and tear excluded. Special finishes other than chrome are warranted for one year. Should any faucet or part or parts thereof prove defective, return the material immediately to: Phoenix Products, Inc., 583 Miller Road, Avon Lake, Ohio, 44012. Repair or replacement will be made without charge. **Liability for consequential damages under any and all warranties are excluded to the extent such exclusion is permitted by law.** Some states do not allow the exclusion or limitation of consequential damages, so the above limitation and exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

### Prices:

The prices on all orders will be those in effect the date of acceptance of order. Our minimum charge is \$25.00.

### Unused Material Return:

Such material may be returned only with written factory authorization. Return must be prepaid and credit allowance will be subject to outbound freight and a handling charge based on circumstances and condition of material when received by Phoenix Products, Inc.

### Freight:

All shipments F.O.B. factory. Shipments of \$1,500.00 and over are shipped prepaid within the Continental USA. There is no freight allowance of any kind for shipments not meeting this minimum.

### Terms:

Net 30 days.

### Broken Carton Charge:

An additional 5% on list price per unit will be assessed to all broken carton orders.

### Past Due Accounts:

Subject to 1.5% monthly service charge.

### Standard Conditions:

All faucets are packed 10 per master carton unless otherwise specified.
